Skills

JavaScript | TypeScript | React | Next.js | MySQL | Node.js | Express.js | MongoDB | Firebase | Sequelize | Tailwind

Work Experience

MERN Stack Developer | Nitensclue Aug 2025 – Present

- Built **MERN & Next.js** apps with TypeScript, delivering scalable, high-performance front-end solutions.
- Implemented APIs, backend logic, and database management with MySQL/Sequelize for live projects.
- Managed **version control and CI/CD workflows** with **Git/GitHub Desktop**, deploying projects on **Vercel**.

Next.js Developer | Okra soft, Mianwali Oct 2024 – Feb 2025

- Developed **Next.js applications** with **Redux** and **React Query** for efficient state and server management.
- Built **scalable, maintainable code** using **reusable components** and modern frontend best practices.
- Managed projects via **Git/GitHub**, delivering solutions publicly and **earning positive community feedback**.

Projects

MannorWear – Fashion E-commerce Website (Personal Business Project) Mar'2025

Technologies: Next.js, Tailwind CSS, TypeScript, MERN Stack

- **Responsive, scalable e-commerce platform** for personal business, ready for **real-world use and live traffic**.
- **Dynamic products with search, filters, and optimized UI** for seamless user experience.

AI Vet Care–Android App (Final Year Project) June'2025

Technologies: Android Studio, Java, XML, Firebase, TensorFlow, Room Database

- Developed an AI-powered livestock health app achieving **94.2% prediction accuracy** with TensorFlow Lite.
- Integrated vaccination, vet consultation, offline, and Firebase real-time support.

Fresh Basket - Ecommerce Platform Mar'2025

Technologies: React, Firebase, REST API, React Router, Firebase

- Developed a clean, minimal e-commerce app with **dynamic search, filter, and real-time Firebase integration**.
- Focused on **modular code structure, UI consistency**, and deployed the app on Netlify.

Edu Track - College Management System Nov'2025

Technologies: Next.js, TypeScript, Tailwind CSS, MySql, Node.js, Express.js

- Developed and deployed a **college management system** with routing, state management, and theme toggling.
- Planned for **real-world use** to streamline college operations and management.

Education

Bachelor of Software Engineering 2021-2025

- *University of Mianwali CGPA: 3.2*

Board of Intermediate and Secondary Education (BISE), Sargodha 2019-2021

- *FSC(Pre-Eng) 83%*

Govt Associate College Kundian, Mianwal 2015-2017

- *Matriculation (SSC – Class X)*

Achievements and Certifications

• **SQL Certificate | Hacker Rank** Aug '2025

Earned SQL Certificate from HackerRank, demonstrating proficiency in database querying.

• **Web Development Certificate | SoloLearn** July '2025

Web Development Certificate from SoloLearn, covering HTML, CSS, and JavaScript.

• **Certificate of Participation CODEQUEST Programming Competition 2025 | University of Mianwali** Mar '2025

Participant in CODEQUEST Programming Competition 2025, University of Mianwali.
